01992 552115 or email:
care@thepperfectsmile.co.uk

Aims:

- To understand the complexities of treatment planning complex multi-unit restorative cases
- How to create treatment plans with different stages and specialties
- To be able to provide treatment with predictable results
- To prevent restorative and occlusal failures from occurring
- To be able to amalgamate various modalities of treatment to achieve the best outcome for your patients

Objectives:

- How to treatment plan comprehensive cases predictably
- Latest techniques in implant dentistry
- Treatment planning with implants (simple and complex cases)
- Periodontal care – grow your practice on a sound foundation
- Improving cases with periodontal care
- Prevent failures in general dentistry, aesthetics and implants
- How to achieve the optimal occlusal function
- Combination treatment plans for optimum results
- Management of complex cases

Please bring your radiographs, study models and photographs for any help you may need with treatment planning

Interdisciplinary Treatment Planning for Optimal Function, Aesthetics, Practice Growth and Success

Thursday 19th January 2012

6.30 pm - 9.00 pm

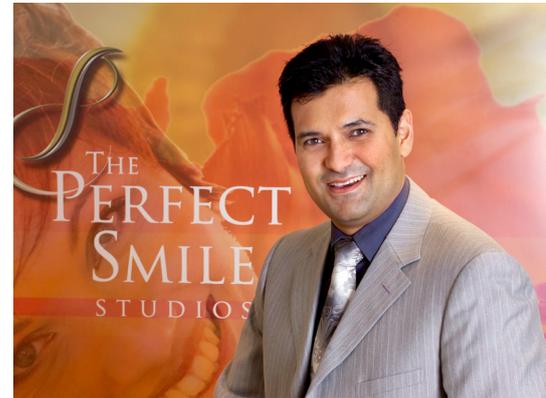

Presented by Dr Rahul Doshi, Dr Andreas Weigt
and Dr Sonia Joshi

Dr Rahul Doshi BDS (Lond) LDSRCS (Eng) and Dr Bhavna Doshi BDS (Lond) are Partners at The Perfect Smile Studios who have unrivalled enthusiasm for their profession. Amongst the premier cosmetic dentists in the UK offering a high level of dental care, they are driven continually to extend the boundaries of their knowledge and undertake further intensive training programmes to stay ahead in their field.

Dr Rahul Doshi

Dr Rahul Doshi is the clinical editor of the monthly dental publication Premium Practice Dentistry and is on the editorial board of Private Dentistry and a judge for the prestigious Private Dentistry Awards. He lectures nationally and internationally on Cosmetic Dentistry, Implantology and Practice Management in USA, Dubai, Italy, India, Germany and Sweden. Dr Doshi is widely featured in the national media including the BBC, ITV, The Times, Daily Mail, The Guardian, Evening Standard, Marie Claire, Tatler, as well as the international and national dental press.

Dr Andreas Weigt

Dr Andreas Weigt has been a Specialist in Oral Maxillofacial Surgery since 1999. He is extremely experienced in dental implant procedures, having placed over 7,000 implants, performed over 1,000 sinus grafts and carried out 1,500 bone grafts and transplantations of upper and lower jaws. He has wide experience of various implant systems and has his own specialist practice in Berlin, Germany.

Dr Sonia Joshi

Dr Sonia Sinha Joshi is a Specialist in Periodontology. She graduated with distinction and has been awarded numerous prizes including the prestigious University of London Gold Medal. Sonia completed the MSc in Periodontology from King's College London and gained the Clinical Fellowship award from the British Society of Periodontology for excellence within her field.

Sonia has published several articles and has presented her work nationally. Sonia's main interest and focus lies within the diagnosis and management of periodontal conditions.
